Anti-Bullying Policy (including Cyberbullying)

1. Definition of Bullying

Bullying can be defined as “behaviour by an individual or a group, repeated over time that intentionally hurts another individual either physically or emotionally”. (DfE “Preventing and Tackling Bullying”, July 2017)

- Bullying can include name calling, taunting, mocking, making offensive comments; kicking; hitting; taking belongings; producing offensive graffiti; gossiping; excluding people from groups and spreading hurtful and untruthful rumours.
- It also includes the same unacceptable behaviours expressed online, sometimes called online or cyberbullying. This can include: sending offensive, upsetting and inappropriate messages by phone, text, instant messenger, through gaming, websites, social media sites and apps, and sending offensive or degrading photos or videos.
- Bullying is recognised by the school as being a form of peer on peer abuse. It can be emotionally abusive and can cause severe and adverse effects on children’s emotional development.

- Measures which may lead to a reduction in bullying incidents such as changes to school environment and procedures will be under constant consideration.
- As part of Restorative Practice, all teaching staff will ensure that pupils have sufficient opportunity to discuss issues regarding bullying in class circle time or if necessary on a one to one basis.
- In the case of cyberbullying, the school will take steps, where appropriate, such as examining system logs, identifying and interviewing possible witnesses and contacting the service provider and the police if necessary. (Please also refer to our Online Safety policy).
- Teachers will teach the children about online safety.
- Report any racist incidents on the online system and notify the Senior Leadership Team.

8. Cyberbullying:

- confiscating and searching pupils' electronic devices, such as mobile phones, in accordance with the law.

The school will access the DfE 'Searching, screening and confiscation at school' and Childnet cyberbullying guidance to ensure that the schools powers are used proportionately and lawfully)

- Requesting the deletion of locally-held content and content posted online if they contravene the School's behavioural policies.

- Where an individual can be identified the school will ensure that sanctions are applied to the person responsible for the cyberbullying; the school will take steps to change the attitude and behaviour of the bully, as well as ensuring access to any additional help that they may need.

11. Generative artificial intelligence (AI)

Artificial intelligence (AI) tools are now widespread and easy to access. Staff, pupils and parents/carers may be familiar with generative chatbots such as ChatGPT and Google Bard.

Newton Leys Primary School and Nursery recognises that AI has many uses to help pupils learn, but may also have the potential to be used to bully others. For example, in the form of 'deepfakes', where AI is used to create images, audio or video hoaxes that look real.

Newton Leys Primary School and Nursery will treat any use of AI to bully pupils in line with our policy.

12. Pupil Responsibilities

In line with Restorative Practice Principles, it is important that pupils understand that in order for an Anti-Bullying Policy to be effective they must take on certain responsibilities within the school community. They are expected to:

- Support peers by being caring and respectful of differences and refrain from any behavior, which may be interpreted as bullying.
- Report any suspected incidents of bullying which the victim may be afraid to report.
- Report all incidents of bullying using the proper procedures.
- Report all incidents or suspected incidents to an adult immediately.

13. Role of Parents

Parents can play a vital role by:

- Reporting any suspected incidents of bullying involving either bullies or victims.
- Encouraging their children to behave in a sociable and responsible manner.
- Supporting the school's Anti-Bullying Policy.
- Encouraging their children to report any incidents or suspected incidents to adults in school.

14. Policy Effectiveness

The effectiveness of the policy will be measured against the following standards:

- The variation in preventing escalation of bullying including cyberbullying incidents over a given time. If children feel confident and safe in reporting to adults reported incidents could at first increase.
- Variations in the number of incidents involving certain identified individuals or groups.
- Variation in academic performance which may be attributed to the consequences of bullying.

15. Monitoring and Review: Putting Policy into Practice

- The school will ensure that they regularly monitor and evaluate mechanisms to ensure that the policy is being consistently applied.
- Any issues identified will be incorporated into the school's action planning.
- The headteacher will be informed of bullying concerns, as appropriate.
